DETAILED ACTION

- This action is responsive to the following communication: Appeal Brief filed on 10/6/06.

Response to Arguments

Applicant's arguments, see pages 6-10, filed 10/6/06, with respect to claims 1, 11, 18, 25, 34, and 41 have been fully considered and are persuasive. The prior art rejection of claims 1, 11, 18, 25, 34, and 41 has been withdrawn.

Allowable Subject Matter

Claims 1-47 are allowable over prior art of record.

The following is an examiner's statement of reasons for allowance: The cited prior art (US 5835098, US 5813020, US 5727220) of record teach a method and a system for embedding and controlling rendering intents within a document but fail to teach and/or suggest a mixed object document structure, wherein the mixed object document structure includes a page layout structure that includes an include object structure, wherein the include object structure signaling inclusion of an identifying rendering control data mapped in the mapping structure for use in rendering the object ***and in combinations of other features*** as cited in independent claims 1, 11, 18, 25, 34, and 41. The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1, 11, 18, 25, 34, and 41.
